

CMMC Implementation Services

Secure Your Business Through Individualized Security & Compliance Remediation Services

Security and compliance aren't one-size-fits-all. That's because different organizations are at varying levels of maturity when it comes to the existing state of their InfoSec and Security Compliance programs.

That's why SP6:

✔ Offers **customized services** tailored to maturing your Controlled Unclassified Information (CUI)/CMMC Compliance program and your Information Security program.

✔ Applies a **realistic, iterative approach** to making these necessary improvements

We understand that organizations can only absorb limited amounts of workload and cost tied to these critical programs. **We prioritize and organize efforts** based around security controls that will provide your organization with the greatest lift.

Benefits to Your Organization:

- ✔ Significantly reduced cyber and business risk.
- ✔ Iterative increases in your organization's Supplier Performance Risk System (SPRS) score and CMMC readiness.
- ✔ A competitive advantage in obtaining federal contracts.
- ✔ A significantly reduced workload, as SP6 handles the time-consuming generation and management of documents and artifacts.

By the end of the Implementation and Remediation phase, your organization will be fully prepared for your CMMC assessment by a Certified Third Party Assessment Organization (C3PAO) or by the DIBCAC.

SP6's CMMC Certified Assessors (CCAs) and Professionals (CCPs):

- ✔ Finalize any necessary improvements to your Systems Security Plan (SSP).
- ✔ Remediate the security gaps in your environment through individualized services.
- ✔ Eliminate ambiguity and facilitate knowledge transfer by focusing on building a foundational cybersecurity program.
- ✔ Improved and updated Supplier Performance Risk System (SPRS) score.
- ✔ Generate a body of evidence documenting your readiness and assurance case.
- ✔ Prepare your organization for a successful C3PAO assessment.

Continue to reduce your cyber risk and move towards greater DFARS and CMMC compliance with SP6.
